

Wayne Paulo On Tour - 2010

Enrichment shows with a difference! They are *visually stimulating and musically presented lectures* for all including an option for an amazing life history by the uniquely qualified Master of photography Wayne Paulo, an NUJ professional with a Prime Minister, two Presidents and the Queen in his portfolio taken over 30 years. Keynote computer programmes artistically show video, film and digital photography using modern technology.

We show a complete projected audio visual theatre style presentation for larger locations. Or a small class room talk with some prints and a computer sequence presentation to suit. The presentations outlined here are based on a mixed selection and cover a variety of subjects, but we can also bias towards one subject if you prefer, for example, Press and PR, Social Photography, Creative Digital Art, Fashion, Travel, Sports and of course Wayne's life stories. The choice is yours and can be tailored or fine tuned to suit your own requirements as desired.

Please read about the contents of the available lectures on tour here.

WAYNE PAULO'S PERSONAL PRESENTATIONS :

- (1) "Nearly Famous" - Circus to Celebrities my pictorial Autobiography a light hearted look at my life!

Wayne's autobiography "*Nearly Famous*" ISBN 978-0-9563625-0-6 is available from Amazon.

And he has also produced this commercial DVD "Get the Picture ...Travel"
A musical and original style of easy learn photography for all ages and walks of life.
Featuring over 350 stunning pictures from across Europe and the United States of America.
Presented in a fast moving thirty minute movie complete with text, original music and commentary, plus an additional 56 page's of interaction, slide shows, gallery and a quiz.
It is an entertaining guide for everyone to help visualise and improve their photography.

Some beautiful landscapes and vibrant sunsets from Europe and the USA, all photographed by Wayne himself, presented in the seminars, they will show the subtleties of composition and framing. They become a Travelling adventure in themselves and will inspire people to better images.

Wayne's Resume (CV) outline

Over half a century of creativity within the talents of one man, his roots starting in the famous Paulo's family Circus, Wayne as a Circus performer was a Bareback Rider, a Juggler, a Clowns stooge, and Trumpet player, then as his career changed playing the guitar was added, just a few of the skills that he used as a Comper, Cabaret Singer, Songwriter, the later leading into the Recording industry as an Engineer, Record Producer, Music Publisher and finally an Actor! Over 25 years of his younger life was actually spent in front of the camera! And appearing regularly in Television programmes as a Walk On gave him valuable experience and knowledge on both sides of the lens.

Wayne Paulo has been a Professional Photographer for over 30 years specialising in Press, Public Relations, Sports and Travel, his pictures have been seen all over the world in Newspapers, Magazines and Web Sites!

Publications are too many to list here but are varied enough to have featured in Amateur Photographer and the National Enquirer! And on the World Wide Web from Sports Illustrated to Blackpool Today!

Now he has turned his hand to guest speaking about his unique life story and recent book release "Nearly Famous". Enrichment presentations for International Cruise Lines, lectures on photography for media and art colleges, plus he is also available for one to one seminars and courses, even home schooling, check out www.getbetterpictures.com

Exclusively he is the only photographer to cover the NFL in Europe (World League of American Football) from 1991 through to 2006 and has covered 13 World Bowls, photographing the likes of Kurt Warner, Brad Johnson, Jake Delhomme, right through to the USA Super Bowls they featured in, he has photographed 8 Super Bowls to date. Wayne during his career has photographed numerous NFL "Hall of Famers" including Joe Montana, Dan Marino and Walter Payton to name but a few! Plus various celebrities like U2, Aerosmith, Paul McCartney, Justin Timberlake, Beyonce, the Rolling Stones and Prince, even Jeremy Irons, Rod Steiger and Michael York from his acting years!

Finally all shows have a powerful musical content, arrangements are composed, created and sometimes even sung by Wayne himself further exploiting the unique fun side to these Look-Listen And Learn presentations.

"These seminars will teach, excite and encourage people to have fun with their picture taking for work or pleasure and towards a better understanding of digital photography!"

Would you like Wayne to explain anything? Want some more information? Have any questions?"
